November 2020: Enhancement Release Notes

We utilized feedback previously gathered from membership, students, and other constituent groups to identify the enhancements included in this release.

Decision Processing

- Decision Notices (CR#743/CR#766): updated the process for notice generation when decisions are posted and added a custom COVID notice.
- Break Student Processing (CR#904): addressed a bug impacting how a limited number of break students received a ready date through the COVID test score exception.
- Home School Waiver Processing (CR#776): updated the process for posting decisions following a home school waiver review.

Student Profile

- Task Details (ECPH2-115/CR#564): updated the task details display to show received documents and the corresponding usable status information.
  - High School transcript task
  - High school equivalency transcript task
  - Home school transcript task
  - Secondary school transcript task
  - Post-secondary school transcript task (domestic and international)
  - InCred Final Evaluation task
  - Test score task

Member Dashboard

- Appellate Request Permission (CR#565): added the Athletics Compliance Administrator role to the list of users who can submit and appellate request.

InCred Requirement

Implemented a number of development changes in support of the InCred requirement that goes into effect January 2021.

- Added HelpTips for international students with InCred-related information
- Added the InCred application number to the student dashboard header
- Added a task to "Link Your InCred Application" to add an InCred application number after a student has registered on PlayNAIA
- Added a task for "Final InCred Evaluation" document

- Updated decision processing logic to utilize the Final InCred Evaluation document for all international student types
- Added functionality for analysts to search using the InCred application number
- Added additional document data fields to match Final InCred Evaluation documents to student accounts
- Added functionality to auto-match/fuzzy match Final InCred Evaluation documents using the student name and/or InCred application number
- Updated international document queue to display InCred application number

Miscellaneous
- ACT Processing (CR#838): updated the file import process to account for the new ACT test score file layout.
- Application Cancellation (CR#889): added additional tasks to the process activity can prevent an application from being cancelled.
- Application Cancellation Tool (CR#890): added a tool allowing analysts to export a data file for direct communication outreach.
