

March 2021: Enhancement Release Notes Talking Points

We utilized feedback previously gathered from membership, students, and other constituent groups to identify the enhancements included in this release.

Decision Processing

- Terms of Attendance on Decision Details (Req#1245): updated display on decision details to include additional attempted and earned hour information for each student athlete's terms of attendance listed.
- ECP look-up API (Req#1273): corrected look-up so the most recent decision is always displayed in ECP, even when multiple decisions for the same term exist.

Competitive Experience

- Inclusion of sport on athletic tracers (Req#1178): updated display to include the sports listed on student athlete's profile.
- Exclusion of dual credit schools from athletic tracers (Req#1180): prevention of athletic tracers from being generated for colleges attended prior to a student athlete's high school graduation.
- Athletic tracer form (Req#1246): addition of data field for user completing the tracer to add their institutional role.
- Athletic tracer submission confirmation (Req#1247): display of a confirmation message once the tracer has been submitted.

Registrar Dashboard

- Registrar staff role addition/removal (Req#1185): updated the process for a Registrar to add/remove the Registrar Staff role from a user on the Manage User page.

High School Dashboard

- Action column for high school users (Req#1283): rebuilt the student list display on the high school portal to address action column display issues (where counselors submit fee waiver information or transcripts).

Student Profile

- NCSA data capture (Req#630): updated the language for the student opt-in and form associated with interest in receiving information from NCSA.

- Fee waiver request process (Req#1188): rebuilt the fee waiver request process to address bugs in the old process that resulted in error notifications to high school counselors when attempting to action.
- Editing sports prior to application submission (Req#1252): added the ability for students to edit their sports on the final profile review page before submitting their application.

Miscellaneous

- Analyst tools (Req#1175): created tool for analysts to re-set which student application should be set as the current/active application.
- Sign-in page label (Req#1179): changed label on sign-in page to show as "email" instead of "username".
- Force resetting student applications (Req#1194): added a dropdown for why the student is being reset that includes a required "notes" field that will automatically add the note to the Student Notes.
- Application cancellation (Req#1251): added additional reasons to the dropdown list for why an application is being manually cancelled.
- Secondary school tasks-country selection (Req#1254): fixed the issue where the manual addition of a secondary school records task wasn't allowing the selection of the appropriate country.
- Refund request processing (Req#1277/Req#1280): updated the process allowing the addition of notes to the request and updating when students can submit a refund request.
